DEVOTED TO CARGO SECURING
Our **MAIN VALUES:**

Weld & Sail has implemented an Integrated Management System according to ISO standards: ISO 9001, 14001, 45001, 27001 y 14064.

This Policy provides the framework for setting the objectives of the Integrated Management System for Quality, Environment, Health and Safety, Energy Efficiency and Information Security.

Weld & Sail **IS COMMITTED TO:**

1

ADAPT TO OUR CUSTOMERS IN ORDER TO SATISFY THEM comply with the customer's requirements offering the best service without impacting the environment and ensuring workers' safety and health.
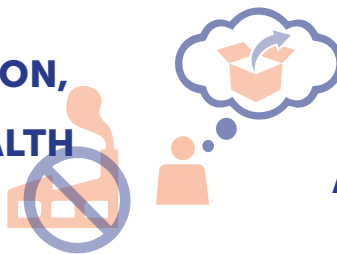

2

FOSTER TEAMWORK AND THE PARTICIPATION OF WORKERS IN THE MANAGEMENT AND DEVELOPMENT OF A COMPREHENSIVE HSEQ SYSTEM that will provide the staff of the company with the necessary means and an adequate training plan for continuous learning.

3

WORK UNDER THE PRINCIPLE OF PREVENTION, AVOIDING POLLUTION AND MANTAINING WORKERS´ HEALTH planning all processes, reducing and removing waste produced in logistical operations, and promoting the sustainable use of adequate resources.

4

EXTEND ACQUIRED COMMITMENT TO STAKEHOLDERS disseminating our quality policy, environment, safety, health and services, supporting the procurement of products and services that have an impact on energy performance.

5

ESTABLISHING THE COMMUNICATION CHANNELS TO WORK TOWARDS CONTINUOUS IMPROVEMENT ALWAYS IN COMPLIANCE WITH THE LAW and other requirements to which the organisation voluntarily subscribes, as well as legal requirements applicable to information security.

6

PROTECTION OF CONFIDENTIALITY, INTEGRITY AND AVAILABILITY AT WELD & SAIL DATA

The **INTEGRATED MANAGEMENT SYSTEM** will be revised by Weld & Sail Management, and all employees or partners must meet the requirements described in the documentation of the management system.
